

'THE HEAVEN EXPRESS'

(Bro. Sunny Mathews, Canada)

This train might start off at any time according to the Biblical Time Table. It is definite that the train will leave at the exact hour may be in the morning, at noon, evening or at night and may be at midnight or at dawn or at the crowing of the cock, at any hour of the day!

One day in my dream, I was walking along a platform of a Railway Station to which I had never gone. The name of that station was "World Centre". Though it was a big station it had only two platforms and there was a train each on both the platforms. The train that was on Platform No. 1. was 490 Up Heaven Express and its engine driver was Christ Jesus. And on the other platform was Train No. 666 Down "HADES EXPRESS" and its engine driver was Lucifer. I was astonished at seeing this two huge trains. The "Hades Express" though larger in size was crowded and at every seconds interval an additional compartment each was being attached to it to accommodate the huge crowd.

The Booking clerk and TTR etc of 490 UP "Heaven Express" was Mr. Holy Spirit and that of the 666 Down "Hades Express" it was Mr. Legion. I had an inquisitiveness to know as to who are going by the Hades Express and as I walked forward to the 1st class compartment I saw many world leaders in a long line and I could recognise them all because they were all famous and great men of the world.

And when I saw the passengers in the 490 UP Heaven Express tears rolled

down my eyes out of joy and they were Apostle Paul Peter, Andrews, Jacob, John Thomas, Philipose, Mathew etc. and also among them were a few martyrs such as Stephen, Polycarp etc. When I walked back on the platform, I saw a few passengers waiting in the Waiting Room and when asked to one of them as to when the train is expected to leave, he replied, it seems this train doesn't leave in the near future. It has been here for so many years, and pointing towards Mr. Mathew who was standing by the side, he continued, he had booked his ticket some 50 years ago. And I saw many more of like nature standing hopelessly. A few of them said "We shall jump-in when the signal is given they said so because they did not know that their names were struck-off from the list. There I happened to see a Malayalee friend who was trying to locate his seat. I asked him whether he had already booked his ticket, he said, yes, our tickets are booked from generations to generations, Then I approached the TTR and there I found a priest along with the members of his church arguing with TTR because their names were not found even in the waiting list. The priest argued, "I had booked for myself and for the whole of the congregation" Collective booking is not permitted, only individual booking is allowed! replied the TTR. The priest thought it nonsense and ran towards the 666 Down train which still had enough space to take even those

who were without tickets, Suddenly there sounded a whistle and simultaneously the green light was ON, The 490 UP 'Heaven Express' picked up speed and went up to the north and disappeared in the twinkling of an eye. Then only I realised that I did not even had my seat and that I am still standing on the platform! I was terribly wonderstick and jumped out of the bed knew that it was all a dream. Yet, a great fear gripped my mind and I fell prostrate on my face and pleaded with the TTR to confirm my ticket. Again I went up on the bed and the dream continued, after the Heaven Express had gone. I saw a few believers running about on the platform, waiting and weeping, they went to the station Master why their names were missed out. One of the believers argued to arrange for an additional special train to take them to Heaven. But the station Master told them that on platform No. 2 there is already a train, yet to go, and it has enough seats to accommodate everyone, you may all go into that, that is special to you and that will take you to your eternal place "Hell",
